

Charles Fox Heads Health Unit Board

The Board of the Rosebud Health Unit met in Didsbury on April 20 and Mr. Charles Fox was elected Chairman, and Mr. Ed Klinkin Vice-Chairman.

It was decided to apply to the Minister of Health for reconstitution of the Health Unit under the new Health Unit Act 1951.

Approval was given to the appointment of Mr. F. Evans as part-time secretary-treasurer of the Health Unit, the appointment to be effective when the Unit is reconstituted under the new Act.

Approval was also given to the action of the previously Acting Chairman in appointing Miss M. Sakai of Drumheller to fill the vacancy on the Public Health Nursing Staff, as from May 20.

The Annual Report of the Health Unit for 1950 was approved, with a special vote of thanks to Miss Davis and Mrs. Petersen for their work when the Unit was without a Medical Officer and Sanitary Inspector for part of the year. Dr. J. Lishman and Mr. J. Broomhall, who joined the staff in November as Medical Officer of Health and Sanitary Inspector, were officially welcomed, and appreciation was expressed for the completion of the Annual Report by Dr. Lishman.

The Quarterly Report for January to March 1951 was received. In this report the Medical Officer drew special attention to two matters concerning the School Health Service. One was the wonderful example set by parents of Crossfield school children as compared with parents in other areas, in attending the School Medical Examinations. Crossfield, with over 70 per cent of parents attending, was twice as good as any other place, and the Medical Officer pointed out that a medical examination without a parent being present is of only incomplete value. The second matter of special interest was that Didsbury school children will shortly have the benefit of free dental examination, owing to an arrangement having been made between the Didsbury School Board and Dr. C. T. McNicol, who will render his services without fee.

This spring, however, the figures are all the other way. Trend of unemployment continued down instead of up all through April.

PLANT COMPETITION AND
WEED CONTROL

Competition is a natural force whereby each living organism tends to attain maximum advantage at the expense of other living organisms occupying a common feeding area. In agriculture, the crop and weed plants grow together in the same field, and both have their demands for moisture, light and nutrients. In most cases all the growing factors, or at least some of them are present in quantities that are not sufficient to assure the best possible development of the crop alone. Under these circumstances any weed plant found in the crop uses part of the limited supplies and ultimately reduces the yield of the neighboring crop plants. Where the weed infestation is general, the reduction in crop is usually proportional to the amount of moisture, light and nutrients used by the weeds at the expense of the crop. Plant competition therefore is of immediate financial concern to every farmer, rancher or plant grower.

1. Weeds do their damage to the crops in no other way except through competing with them for the essential elements of growth—Moisture, Light and Nutrients.

2. The majority of common weeds mature and shatter their seeds before the crops are harvested. This helps to complicate ultimate eradication.

3. All important field crops possess larger seeds which can germinate from greater depth, in shorter time, in higher percentages and at lower temperatures than the majority of the broad leaved weeds.

4. During the first weeks after emergence, all grain crops grow more rapidly and develop larger root systems and leaf surfaces than do common weeds. By taking into consideration the biological differences between crop and weed plants, and the skillful application of cultural or chemical means, it can result in assisting the crop while at the same time depicting the weed population.

Next week we will deal with cross seeding.

M.V.B.C. NEWS

School is over for another season. There will now be put forth an all-out effort to prepare for the coming school season which will begin in October.

The high school students who are boarding here will continue on until the end of June. President and Mrs. J. F. Hoskins, Miss Gladys Eby and Abe Sawatzky will be employed around the premises the major part of the summer, with exception of holidays.

Mrs. Lydia Suder will leave for Indiana shortly where she will attend the annual meeting of the Inter Conference Council of the Women's Missionary Society of the U.M.C.

G. Lyle Richardson left for Regina where he will be song evangelizing in week's services. John F. Wilson will leave shortly for his home in Youngstown, Ohio. In June he will resume his music studies at the American Conservatory of Music in Chicago.

Mrs. Lemont will spend at least part of the summer at his home on the farm. Further plans are still indefinite.

During the absence of Miss Marjorie Eby on leave, Miss Grace Hunsperger took over much of the cooking work in the kitchen. She has been with us on numerous occasions to help when we needed help.

COMMENCEMENT, 1951

The commencement address delivered by the Honourable E. C. Manning on Monday, April 23, was a clear challenge to every earnest, thinking Christian. His subject was "Salt and Savor." The man of God is called the salt, and his savor is represented by his spiritual vitality and testimony. How to retain the savor, is by obedience. "Christ is the salt of the world," said the speaker. Quoting Jno. 2:15, "Whosoever He Saith, unto you, Do It."

The text was enlarged upon by the observation that obedience is required in two ways: (1) God's Time, and (2) On God's Road. God's time is always right, never too early and never too late. Obedience on God's Road results in getting God's work done in the way He wants it done.

Special musical numbers on the program were: "Bless the Lord, O My Soul," A Cappella Choir; "Let Me Burn Out For Thee," sung by Orland Boettger, G. Lyle Richardson and Myron Thweid; "Sold," "Christ Can Not Fail," sung by G. Lyle Richardson; and "Send Out Thy Light," A Cappella Choir.

Mrs. Manning delighted the audience with two fine piano numbers which she played on request. They were: "Master, the Tempest is Raging," in variations, and "Jesus, Lover of My Soul," also in variations.

The Degrees of Bachelor of Theology. (Continued on page 5)

Fishing Season Now
Open in Central Alta.

Dates of Alberta angling seasons were announced at Edmonton last Wednesday, and the central Alberta season for grayling, Rocky Mountain whitefish and all trout except lake trout opened May 1st. The season will continue to September 30, on the Red Deer and North Saskatchewan Rivers and their tributaries.

The northern season on the Athabasca River and its tributaries, for the same fish, is from June 1 to October 15.

Alberta season for lake trout is May 16 to September 15. Season for pike, pickerel, perch and goldeye is May 16 to March 31, except on the Bow River, downstream from Eyremore Bridge, which is open all year.

Because winter loss in these rivers is 60 percent, seasons for grayling, Rocky Mountain whitefish and all trout but lake trout will be open for the entire year on the Macleod and Elbow rivers and on the main stream of the Bow River downstream from the Louise Bridge in Calgary. Seasons for these fish from the international boundary north to the Bow River is June 16 to Oct. 31.

Per day limits are 15 fish of one species or an aggregate 15 fish of combined species of trout, grayling and Rocky Mountain whitefish.

Only exception is in Kananaskis Lakes and connecting rivers, where the daily maximum catch is 10 fish or 20 pounds. Limit on lake trout is 10 fish per day.

Pike and pickerel limits are 15 fish of one species or an aggregate of no more than 15 fish of combined species.

Elimination of minimum size limits for trout, grayling and Rocky Mountain whitefish leaves size limits on only lake trout and pickerel in the province. Lake trout must be 15 inches long, pickerel 12 inches long.

Miss Nita Pinkerton was her sister's bridesmaid and the groom was supported by his brother Kenneth.

The bride looked lovely in a floor-length gown of white satin and lace and carried a bouquet of red roses and pink carnations.

The bride is the daughter of Mr. and Mrs. Harry Pinkerton of Eagle Hill, and the groom is the eldest son of Mr. and Mrs. V. Egging of Didsbury.

The couple will reside on the groom's farm in the Zella district.

TO DREDGE IRON

Far down the St. Lawrence at the mouth of the Natashquan River a unique mining venture is expected to be in production by early 1952. Ore to be mined, by dredging, is black magnetite sand; to be sold, must be 15 inches long, a concentrate containing an estimated 69 per cent iron.

A special ceremony marked the arrival of the first Alberta oil to reach the Sarnia refinery of Imperial Oil. It was an event, that well justified special ceremony.

The arrival of the first western oil in eastern Canada via the new \$80 million pipeline from Edmonton to Lake Superior, is a milestone in our national development. It marks the beginning of a new era in our prairie economy, just as did the first shipment of western wheat.

From the first shipment of western wheat has developed a trade that has brought billions of dollars to the Prairie Provinces in Canada. From this shipment of oil we expect a similar development.

PRAIRIE BOOM

The mid-century boom of the Prairies is under way, enthusiastically. Across the 753,197 square miles of the three provinces, that's a feeling today.

It's a feeling based on more than just prairie optimism, and the hope that the weather will be kind to the crops.

It's based on other, more concrete factors, such as these.

World food demand will remain high; barring unexpectedly huge crops and surpluses, the farmers seem assured of a good price for everything he can raise.

The search for oil, essential in peace or war, is spreading across the prairies; output will be increased from existing and new wells.

There's more production that is in sight and exploration of uranium and base metals.

Industry is expanding to meet local growing needs, and to use local materials for national needs.

WILLIAM VERNON DIES AT VANCOUVER

At the Vancouver General Hospital on April 16, 1951, William Vernon, aged 73, of 4364 E. Pender St., passed away following a lengthy illness.

He is survived by his loving wife, Alice May; two sons, William W. of Vancouver, and Howard W. of Saskatoon; one daughter, Mrs. C. E. Snider, Vernon, B.C.; a step-son, Bob, at home; one brother, Silas, Sundre, Alberta; two sisters, Mrs. H. Gibson, Didsbury, Alberta, and Mrs. A. Apps, Burnaby, and five grandchildren.

Funeral services were held Wednesday, April 18, at 1:30 p.m. from the Burnaby Funeral Directors Chapel, with Rev. E. V. Apps officiating. Interment in Forest Lawn Cemetery.

NEWCASTLE DISEASE PRECAUTIONS URGED

The report that Newcastle Disease has again broken out in some of the larger poultry breeding flocks in British Columbia is causing some concern in Alberta.

Due to the proximity of British Columbia and the fact that large numbers of eggs and baby chicks are imported from that Province, it is necessary that every possible precaution be taken to keep Newcastle Disease from spreading into Alberta. The Alberta Department of Agriculture recommends that poultry producers make certain that chicks purchased this spring are secured from sources that are free of Newcastle Disease.

Printed matter describing the symptoms of Newcastle Disease is available at the offices of District Agriculturists or from the Poultry Branch, Department of Agriculture, Edmonton.

MORE FUEL FOR THE FIRE

Granting further freight rate increases will be adding still more fuel to the fires of inflation, declares the Financial Post.

Because the cost of transportation is an important factor in the production and distribution of every product used in Canada, any considerable advance in freight

rates makes a general rise in prices inevitable. That in turn is almost certain to precipitate another round of wage demands to be followed by further increases in freight rates and so on indefinitely.

Each increase of this sort ties our economy more and more firmly to a pitiful merry-go-round of inflation which seems to lack both governor and brakes.

DAIRY PRODUCTS MAKE Your FOOD DOLLARS GO FARTHER

Every housewife these days is fighting the "battle of the home budget". She is quite aware that food costs have soared, and was not surprised when the Cost of Living Index at March 1st, last showed food at 244.4 compared with 100 for the base period of 1935-39.

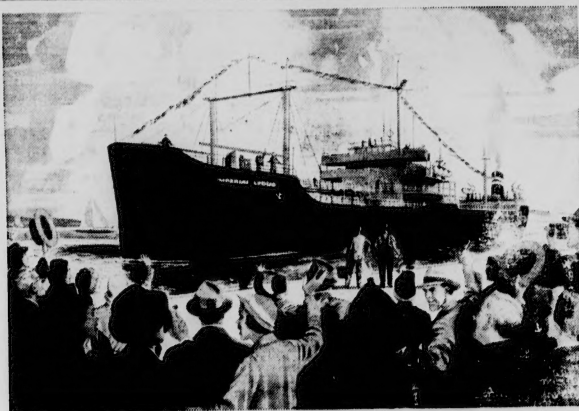

The Dairy Farmers of Canada, faced with rising costs like everyone else, are pleased to draw attention to the fact that Dairy Products in the same index stood at 200.1 while other foods in the index were 247.5.

The price of Dairy Products is not at all out of line with other items in the Cost of Living Index, nor with wages in industry. While milk, butter and cheese stand at 200.1, clothing stands at 196.6 and home furnishings at 199.3. Wages based on hourly rates of pay in Canada stood at 226.8 as of Dec. 1, 1950, according to Department of Labour Statistics.

**IMPORTANT PICTURE FOR CANADIANS !**

When the "Imperial Leduc" steamed into Sarnia the other day she made important news for all Canadians and particularly for those who live in the prairie provinces.

The ship herself was news—the world's largest lake tanker on her maiden voyage. Even greater news was her cargo—the first shipment of Alberta oil into the Ontario market.

This new outlet for western crude means price savings of more than \$5 millions here in the prairies this year. Altogether, people in Alberta, Saskatchewan and Manitoba are now paying \$55 millions a year less for oil products than if the new oil fields hadn't been found. That works out to an average saving of more than \$80 for every family.

The larger market will increase Canada's oil production by almost one-half. Forty million dollars formerly spent for foreign oil will be available for other purposes. And of special importance it makes Canada surer of oil supplies in peace or war.

Arrival of the "Imperial Leduc" at Sarnia begins a new chapter in the story of Canada's economic development—a development which is making the nation more prosperous and more secure.

ALUMNI AND COLLEGE SILVER ANNIVERSARY BANQUET

Dr. E. E. Martin, president of Canadian Nazarene College of Red Deer, Alberta, addressed the guests at the annual banquet on Monday, April 23, at 2 p.m. His subject was, "Divine Guidance in a Day of Confusion." Speaking of the signs of the times, he said that it is easier to look back, and into the more distant future than to trace God's dealings in the immediate present.

He declared that: 1. We are in a world era of history, no isolation nationally or internationally; 2. The world is in a period of some kind of judgement; man's ways of living are being tested; 3. There is a test of leadership. None is free from the pressure of these times.

Dr. Martin majored on the sort of leadership of the day. He claimed that God is preparing men to meet the tests, and that the right kind of man can meet them. That leader needs character, quality, sincerity, mature spiritual discernment and judgement. Every man should be concerned "to serve the present age, his calling to fulfill."

A number of interesting short speeches were made by alumnae representing the various graduating classes. There was also special music which afforded much pleasure.

About 100 guests were present on this occasion.
